Discrete and Comfortable New Waiting Room

Recognizing the unique needs and sensitivities of bariatric patients, Dr. Amir's center has unveiled a newly redesigned waiting room that prioritizes privacy and comfort. This thoughtfully crafted space allows patients to relax and feel at ease before their appointments, setting the stage for a positive and productive visit.

“

We develop personalized strategies, educating on nutrition and focusing on progress. Occasional indulgences are temporary. Patients return to their plan, trusting our program and support.”

Extended Initial Consultations

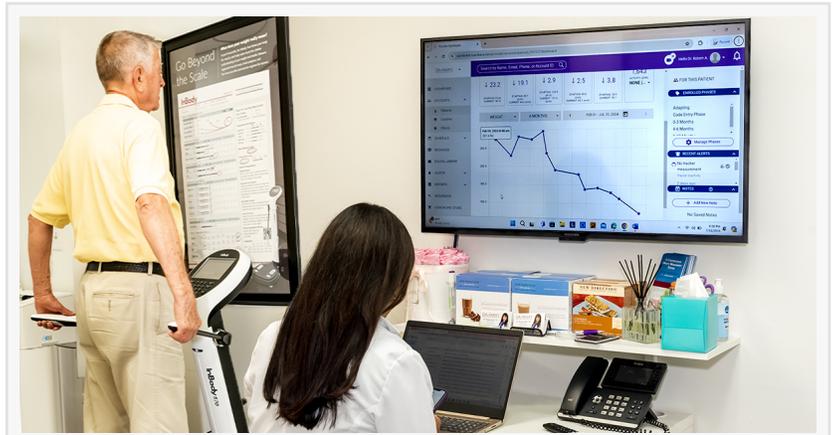

Understanding that effective weight management requires a thorough understanding of each patient's unique needs and challenges, Dr. Amir continues to spend industry-leading amounts of time during initial and follow up consultations. At 45 minutes, initial sessions provide ample time for in-depth discussions, detailed assessments, and the development of personalized treatment plans. Follow up consultations are 30 minutes long. This represents a substantial amount of time beyond the industry average of just 15 minutes. This extra time highlights Dr. Amir's commitment to comprehensive, patient-centered care.

About Dr. Amir's Weight Loss and Metabolism Center

Dr. Rotem Amir's center represents a paradigm shift in the management of overweight and obesity, recognizing these conditions as chronic diseases requiring long-term, personalized care. Dr. Amir's approach is rooted in the latest scientific research and tailored to each individual's unique needs and genetic predispositions.

Key features of Dr. Amir's practice include:

1. Individualized Treatment Plans: Recognizing that there is no one-size-fits-all solution, Dr. Amir develops custom strategies for each patient.
2. Advanced Screening: Patients undergo thorough evaluations to identify potential inherited conditions that may contribute to weight gain.
3. Cutting-Edge Expertise: Dr. Amir brings her extensive medical knowledge and advanced training in obesity from prestigious institutions like Harvard and Cornell to every patient interaction.
