## Segment Insights

### By Type

- The Aqueous Film Forming Foam (AFFF) segment dominated the market in 2020, holding around one-third of the total share. This segment is also projected to exhibit the fastest CAGR of 3.9% during the forecast period, driven by its dual applicability in Class A and Class B fire scenarios. Other key types include AR-AFFF, protein foam, and synthetic detergent foam.

## By End-Use Industry

- The oil & gas sector led in 2020, accounting for nearly one-third of the market. This segment is forecasted to grow at the highest CAGR of 3.9% through 2027 due to the sector's high fire-risk profile and stringent safety regulations. Other end-use industries analyzed include aviation, marine, and mining.

## Regional Highlights

-Asia-Pacific: This region accounted for the largest market share in 2020 (~33%) and is expected to exhibit the highest CAGR of 3.9% during the forecast period, fueled by strong demand in China, India, and South Korea.

- North America: While growing at a more modest CAGR of 3.2%, the region remains a key player in the global market.

- Other Regions: The report also explores trends across Europe, LAMEA, and additional global markets.
