How Is The Market Projected To Perform In The Future?

The enteric softgel capsules market is poised for steady growth in the coming years. It is expected to grow to \$2.99 billion in 2029 at a CAGR of 4.97%. The predicted growth during this forecast period can be attributed to increasing focus on clinical trials, increasing reliance on online platforms, enlarged emphasis on preventive healthcare, rising incidence of nutrition disorders, and growing awareness. Substantive trends in the forecast period include technological advancements, focus on clinical trials, innovation in the manufacturing process, burgeoning partnerships, and product innovation.

## What Are The Key Factors Propelling The Enteric Softgel Capsules Market?

The increasing incidence of nutrition disorders is a prominent driving factor for the future growth of the enteric softgel capsules market. Nutritional disorders refer to conditions caused by imbalances in nutrient intake, either through deficiencies or excesses of essential vitamins, minerals, proteins, fats, and carbohydrates. The rise in such disorders is driven by factors such as poor dietary habits, sedentary lifestyles, limited access to nutritious food, escalating processed food consumption, and socio-economic challenges that impede proper nutrition.
