

Global Small Gas Engines Market is Expected to Grow at CAGR of 4% by 2022

Small Gas Engines Market is expected to grow with the CAGR of approximately 4% from 2016 to 2022, By Engine Displacement, By Equipment, By Application

PUNE, MAHARASHTRA, INDIA, March 20, 2017 /EINPresswire.com/ -- Market Highlights

Small Gas Engines Market is expected to grow with the CAGR of approximately 4% the growth of the small gas engines market is majorly driven by the availability of oil-indexed gas and liquefied natural gas, which facilitates the easy functioning of small engines. The introductions of some nuclear power capacities, which are capable of being used in the small gas engines, also drive the growth of the market. The increasing demand for electricity with the growing population, drop in natural gas prices, and the increasing environmental concerns are major factors driving the gas engines market. The ability of small gas engines to generate and utilize power from the renewable sources of energy such as biogas is also driving the growth of the market.

- Yamaha Motor Corp. (Japan)
- Honda Motor Co., Ltd. (Japan)
- Kohler Co. (U.S.)
- Briggs & Stratton Corporation (U.S.)

- Generac Power Systems (U.S.)
- Subaru Ltd. (Japan)
- Kawasaki Heavy Industries Motorcycle & Engine Company (U.S.)

Regional Analysis

North America region is expected to dominate the small gas engines market with highest CAGR owing to huge expenditure on R&D by the established players in the region such as Caterpillar Inc. among others. The heavy investments made in the region for construction of smart and green buildings in the region are expected to contribute significantly to the growth of the market.

Scope of the Report

This study provides an overview of the Global small gas engines market, tracking three market segments across four geographic regions. The report studies key players, providing a five-year annual trend analysis that highlights market size, volume and share for North America, Europe, Asia Pacific (APAC) and Rest of the World (ROW). The report also provides a forecast, focusing on the market opportunities for the next five years for each region. The scope of the study segments the Global Small gas engines market by its engine displacement, equipment, application and region.

By Engine Displacement

- 20-100 cc
- 101-400 cc
- 401-650 cc

By Equipment

- Lawnmower
- Chainsaw
- Screed
- Pressure Washer
- Trimmer
- Others

By Application

- Gardening
- Industrial
- Construction
- Others

By Region

- North America
- Asia Pacific
- Europe
- Rest of the World
