Summary

Energy and utilities construction market covers the development of energy and telecommunications related projects, oil and gas projects including both upstream and downstream exploration, and utility projects such as water and sewage infrastructure. This market includes five categories: electricity and power, oil & gas, telecommunications, sewage infrastructure and water infrastructure.

The South Korean energy and utilities construction category has observed some fluctuations in the review period with a value of KRWxxx.xx million (US\$xxx.xx million) in 2017 and increased at a rate of x.xx% over 2016. The market recorded a CARC of -x.xx% from 2013 through 2017.

"Energy and Utilities Construction Market in South Korea: Market Size, Growth and Forecast Analytics to 2022" provides a top-level overview and detailed insight into the operating environment of the energy and utilities construction market in South Korea. It is an essential tool for companies active across the South Korea construction value chain and for new players considering to enter the market.

Scope

- An overview of the energy and utilities construction market in South Korea.

Historic (2013 through 2017) and forecast (2018 through 2022) construction market output values are provided.

A detailed breakdown of the data by construction activity (new construction, repair and maintenance, refurbishment and demolition) is provided at the market level while the values for the segments are provided by cost types (construction materials, construction equipment & construction services). This report covers all the segments of commercial construction market including Energy and utilities construction market covers the development of energy and telecommunications related projects, oil and gas projects including both upstream and downstream exploration, and utility projects such as water and sewage infrastructure. This market includes five categories: electricity and power, oil & gas, telecommunications, sewage infrastructure and water infrastructure..

Reasons To Buy

- Enhances your knowledge of the market with key figures detailing construction type.

Provides you with a breakdown of the market by construction activity (new construction, repair and maintenance, refurbishment and demolition).

Provides you with a breakdown of the segments by cost type (construction materials, construction equipment & construction services).

Details the segments covered under commercial construction market.

Allows you to plan future business decisions using the forecast figures given.

Table of Contents

1 Introduction

1.1 What is this Report About?

1.2 Definitions

1.3 CAGR Definition and Calculation

2 Overall Energy and Utilities Construction Value: Market Analysis

2.1 Overall Energy and Utilities Construction Output Value, 2013 - 2017

2.2 Overall Energy and Utilities Construction Output Value Forecast, 2018 - 2022

2.3 Overall Energy and Utilities Construction Output Value by Cost Type

2.3.1 Overall Energy and Utilities Construction Output Value by Cost Type, 2013 - 2017

2.3.2 Overall Energy and Utilities Construction Output Value Forecast, by Cost Type, 2018 - 2022

3 Energy and Utilities Construction Output: Analysis by Category

3.1 New Construction Output Value, 2013 - 2017

3.2 New Construction Output Value Forecast, 2018 - 2022

3.3 New Construction Output Value by Cost Type

List of Tables

Table 1: Timetric- Energy and Utilities Construction Market Definitions

Table 2: South Korean Overall Energy and Utilities Construction Output Value (US\$ Million), 2013 - 2017

Table 3: South Korean Overall Energy and Utilities Construction Output Value (KRW Million), 2013 - 2017

List of Figures

Figure 1: South Korean Overall Energy and Utilities Construction Output Value (KRW Million), 2013 - 2017

Figure 2: South Korean Overall Energy and Utilities Construction Output Value (KRW Million), 2018 - 2022

Figure 3: South Korean Overall Energy and Utilities Construction Output Value by Cost Type (KRW Million), 2013 - 2017
