## Key Players

The Plasma Fractionation market report contains a comprehensive study of the competitive scenario of the Plasma Fractionation market and the existing trends that are forecasted to disrupt the market. It recognizes dynamic players of the market, counting both the primary and developing players. The report covers the companies in the market share review to provide a more comprehensive overview of the significant market players.

Plasma Fractionation is a process of segregating various components of blood plasma, which in turn is a component of blood obtained through fractionation of blood. In short, it is a process of extracting therapeutic products in which the plasma component of human blood is processed. The global plasma fractionation market was USD 17.62 billion in 2018 and is estimated to reach USD 26.97 billion by 2025 at a CAGR of 6.27% during the forecasted period

## Growth by Region

North America holds the largest market share due to the increase in per capita healthcare spending in the United States along with increasing demands from patients for better healthcare facilities. North America is followed by Europe. Asia Pacific region, on the other hand, is

anticipated to witness highest CAGR due to factors such as increasing ubiquity of haemophilia in countries such as China and India as well as the increasing ageing population in the region. While, Latin America, Middle East and Africa (LAMEA) region hold the least share and faces a sluggish growth when compared to other regions.

#### Drivers vs Constraints

The market is mainly driven by the rising prevalence of blood and immune disorders due to the increasing ageing population along with rising off-label usage of critical plasma products such as albumins and immunoglobulins. Whatsoever, escalating costs of plasma derivatives along with the risk factors associated with them and also combined with increasing usage of recombinant proteins and products which act as a substitute for the plasma products are expected to hinder the growth of global plasma fractionation market globally.
