Summary: – A new market study, titled "Sports Apparels Market Upcoming Trends, Growth Drivers and Challenges" has been featured on WiseGuyReports.

Overview:-

Global Sports Apparel market is estimated to witness a CAGR of 4.11% during the forecast period (2020 - 2026). Rising health and self-consciousness, desire to lead active lifestyles and to appear fit, is encouraging consumers to incorporate sports and fitness activities into their daily routine. This increased participation has led to a change in market dynamics, leading to an increased demand for sports apparel. The rising participation of women in professional and domestic sports and fitness activities is expected to drive the market over the forecast period. The rising crossover between sports and fashion, which had led to an increased presence of fashionable sports apparel, which is expected to further fuel the interest of women. The availability of sports apparel with enhanced properties such as moisture management, temperature control, and other performance-boosting characteristics that prevent discomfort and potential injury, has captured the interest of consumers, who have been observed to be willing to pay more for such additional benefits.
