

Blue Raven Solar Ranks on Inc. 5000 List of Fastest Growing Companies Two Consecutive Years

Blue Raven Solar ranks among America's fastest growing private companies in 2019 and 2020

OREM, UTAH, UNITED STATES, August 13, 2020 /EINPresswire.com/ -- Inc. Magazine recognized Blue Raven Solar as one of the fastest growing private companies in the United States in its annual Inc. 5000 list for the second consecutive year. One of the most prestigious rankings for private companies, Inc. 5000 recognizes the

top 5,000 most successful companies within the American economy's most dynamic segment—its independent small businesses.

“Our growth is due to a great product that makes homeowners' lives better by giving them access to clean energy and savings, and a nationwide team that puts customers first,” says Ben Peterson, CEO of Blue Raven Solar.

“

Our growth is due to a great product that makes homeowner's lives better by giving them access to clean energy and savings, and a nationwide team that puts customers first.”

Ben Peterson, CEO of Blue Raven Solar

The annual list ranks the top independently owned private companies by their three-year revenue growth rate. Companies that made the list, on average, have grown sixfold since 2016, during a stretch when the economy grew just 15 percent. Some notable companies that have been featured on the list in previous years include Intuit, Zappos, Under Armour, Microsoft, Patagonia, and many other well-known names.

“The companies on this year's Inc. 5000 come from nearly every realm of business,” says Inc. editor-in-chief Scott Omelianuk. “From health and software to media and hospitality, the 2020 list

proves that no matter the sector, incredible growth is based on the foundations of tenacity and opportunism.”

Blue Raven Solar provides homeowners across America with a simple and affordable way to get the best solar technology while saving on their utilities. In six years, the company has gone from three to over 1,200 team members nationwide and become a top solar company in the U.S.

“Unlike nearly every product out there, we ask our customers for permission to put more money in their wallet instead of asking for more wallet share,” says Peterson. “Going solar is a no-brainer for so many because of the long-term savings and environmental impact. Blue Raven Solar is a company that homeowners can trust.”
