PUNE, MAHARASTRA, INDIA, September 21, 2020 /EINPresswire.com/ --

WiseGuyReports.com Publish A New Market Research Report on –“ Healthcare Fraud Detection 2020 Global Market – Opportunities, Challenges, Strategies & Forecasts 2024”.

[Healthcare Fraud Detection Market 2020](#)

Summary: -

Generally, the major market performers are actively participating in business advancement in the healthcare fraud detection and related organizations. For illustration, in 2019 Optum, Inc. purchased DaVita Medical Group, one of the foremost independent medical groups in the US. Frauds in healthcare increase the burden on the healthcare industry as a rise in the

healthcare cost directly involve the products and services. The global healthcare fraud detection market is in the growing healthcare business continuum. The factors driving global healthcare fraud detection market are the rising number of patients opting for health insurance, an increase in the incidents of fraudulent activities, the escalation in healthcare expenditure, and others. However, the unwillingness of the end users to adopt healthcare fraud analytics systems in growing regions are likely to restrain the growth of the global healthcare fraud detection market during the forecast period. For example, agreeing to the National Health Care Anti-Fraud Association (NHCAA) the financial losses suffered from healthcare frauds add up to roughly USD 10 billion each year. This suggests that there is a looming need to detect fraudulent activities in healthcare business which in turn will boost the global healthcare fraud detection market. Healthcare fraud is a misrepresentation or intentional deception of facts by either healthcare specialists or patients, which can cause in illicit disbursements or advantages.
