## Description

Wiseguyreports.Com Adds "Gaming -Market Demand, Growth, Opportunities and Analysis Of Top Key Player Forecast To 2025" To Its Research Database

French gaming market is estimated to reach US\$13.16 billion in 2024, growing at a CAGR of 2.29% for the period spanning from 2020 to 2024. The factors such as rising number of smartphone users, increasing demand for internet of things, strong mobile gaming growth, growth of sports events and growing online sports betting are expected to drive the market. However, growth of the industry will be challenged by stringent government regulations, security issues and high tax rates. A few notable trends include growing number of online women gamblers, changing consumer gambling habits, increasing use of virtual money, adoption of VR and AR technologies and use of AI technology.

French gaming market is segmented into lottery, VLT machines, sports betting, horse race betting, table games and poker. French gaming market is highly dominated by lottery owing to growing interest, and rising number of dual-income households.
