

Registration is now open for SMI's Inaugural Medical Wearables for Biosensors Conference 2021

SMi Reports: Registration is open for the Inaugural Medical Wearables for Biosensors Conference taking place October 25th - 26th in Boston, USA.

LONDON, LONDON BRIDGE , UNITED KINGDOM, May 18, 2021

/EINPresswire.com/ -- As part of SMI's leading series of medical device conferences, this year's event will bring together expertise from individuals in multiple disciplines in the field of body-worn sensors and connected devices.

The two-day conference will offer a series of presentations, through which you will gain insight into on-body devices for monitoring and remote diagnostics, device design considerations, [wearables](#) in clinical trials and a future outlook of the industry focusing on start-ups and novel developments.

Benefits of attending:

- Engage in case studies from leading experts on wearable devices for remote diagnostics and patient monitoring
- Explore how industry is using on-body [biosensors](#) for a patient centric-approach to therapeutics
- Delve into the regulatory landscape of digital health and data management with regulatory body and leading expert addresses
- Uncover the evolving research into smart vaccines for COVID-19 and accelerating accessibility of new wearable technologies

A promotional poster for the "Medical Wearables for Biosensors Conference 2021". The background is dark blue. At the top, it says "SMI Group proudly presents the inaugural conference...". Below that, the title "Medical Wearables for Biosensors" is written in large, bold, orange letters. To the right of the title, the dates "25th - 26th October 2021" are listed. In the center, there is a stylized, glowing blue wireframe figure of a person wearing a smartwatch, with a heart and an ECG line overlaid on the chest area. To the right of the figure, the text "Exploring therapeutic applications of connected on-body devices." is written in white. At the bottom, the website "biosensors-medical-wear.com" is displayed in orange, and below that, "Medical Wearables for Biosensors Conference 2021" is written in white.

You can view the two-day agenda and speaker programme on the event website:
www.biosensors-medical-wear.com/pr1

Plus, two interactive half-day post conference workshops on Wednesday 27th October 2021:

A: Digital Integration within Clinical Trials

Workshop Leaders:

Gary McNamara, Senior Delivery Manager, Aparito

Daniel Lewi, Head of Business Development, Aparito

B: Energy Harvesting Systems for Body-Worn Sensors

Workshop Leaders:

Veena Misra, Distinguished Professor, Director, NSF Center for Advanced Self-Powered Systems of Integrated Sensors and Technologies (ASSIST)

Registration is live on the website and a saving of £200 is available for bookings made before 30th June 2021. Register online www.biosensors-medical-wear.com/pr1

Who should attend:

Executives, Directors, VPs, Heads, Principals, Managers of:

Digital health and connectivity

Smart device developers

Device manufacturers

Biosensors

Wearable devices

Connected Devices

Microneedle Patches

Human Factors

Packaging

Regulatory Affairs

Medical Device Data

Medical Wearables for Biosensors USA Conference 2021

Conference: 25 - 26 October 2021

Venue: Sheraton Boston Hotel, Boston, USA

Virtual Attendance Option Available
