

We are thrilled to announce the launch of our new global community platform

World Elite Solutions is expanding its range of events by offering a new digital community platform, available worldwide, around the clock, – 365 days a year,

BEIRUT, LEBANON, July 1, 2021 /EINPresswire.com/ -- 2020 forever changed the way we plan events. As the dust clears a bit and we look to the future of meetings and events for 2021, a few things are for sure; virtual events are here to stay, and the future is hybrid. With these new event types, there is an obvious need for [World Elite Solutions](#) to put upcoming series of events in one digital platform, that bring together experts, governmental and media representatives, leaders from the private sector to tackle the current situation of Lebanon and finds ways to move forward, in different sectors of interest like healthcare, infrastructure, agriculture, energy, ICT, education and many more.

[The Exclusive Community Platform](#), created by b2Match, with the support of the Lebanese Ministry of Industry and Association of Lebanese Industrialists will be available worldwide, around the clock, and offers the participants the opportunity to expand their network beyond the borders of a country with its integrated marketplace and B2B matchmaking!

This digital interactive platform will not replace the person-to-person interaction, but rather expand the reach of the participants and our partners. The “live days” will give the industry professionals the opportunity for regular interaction. Every month companies and industry professionals will be invited to meet live in the digital space of [The Exclusive](#) Community Platform. These Live Days will be highlighted by speeches, case studies, and presentations pertaining to current topics for the concrete and precast industry. The case studies will be offered live and on-demand where we will be able to combine real with the virtual and analog with digital realms.
