The 3G infrastructure equipment market consists of the revenue generated by the sales of 3G infrastructure equipment by the company's manufacturing the 3G infrastructure equipment. The 3G infrastructure equipment include switching equipment, transmission equipment, signaling equipment, private branch exchange phone system equipment, enterprise networking equipment, central office switching hardware, LAN modems, multi-user modems, and other data communications hardware such as bridges, routers, gateways, mobile devices and base stations.

Trends In The Global 3G Infrastructure Equipment Market

Airline companies are increasingly implementing Inflight connectivity as the consumers are choosing airlines based on internet speed and data usage charges. The ability to use smartphone during flight travel is among the top three considerations people have when choosing an airline as per research. Inflight connectivity help create an enjoyable inflight experience for passengers by providing entertainment along with airlines having the opportunity to reinvent inflight ecommerce and Inflight advertisement and promotion. For instance, in March 2020, the central government in India permitted airlines operating in India to provide in-flight Wi-Fi services to passengers.

[Global 3G Infrastructure Equipment Market Segments:](#)

By Type: Wireless Infrastructure, Wired Infrastructure

By Product: Public Switching Equipment, Analog Equipment, Digital Equipment, Transmission Equipment, Transmission Lines, Base Transceiver Stations, Multiplexers, Communication Satellites, Others (Customer Premises Equipment, Private Switches, Modems, Routers)

By End User: Consumer Electronics, BFSI, Defense, Media, Others

By Geography: The global 3G infrastructure equipment market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.

3G Infrastructure Equipment Global Market Report 2021 is one of a series of new reports from The Business Research Company that provides 3G infrastructure equipment market overviews, analyzes and forecasts market size and growth for the global 3G infrastructure equipment market, 3G infrastructure equipment market share, 3G infrastructure equipment market players, 3G infrastructure equipment market segments and geographies, 3G infrastructure equipment market's leading competitors' revenues, profiles and market shares. The 3G infrastructure equipment market report identifies top countries and segments for opportunities and strategies

based on market trends and leading competitors' approaches.

Read 3G Infrastructure Equipment Global Market Report 2021 from The Business Research Company for information on the following:

Data Segmentations: Market Size, Global, By Region And By Country; Historic And Forecast Size, And Growth Rates For The World, 7 Regions And 12 Countries

3G Infrastructure Equipment Market Organizations Covered: Huawei Technologies Co. Ltd, Cisco, Fujitso, NEC corporation, Nokia, Ericsson, Qualcomm, ZTE, Corning, Motorola Solutions, Juniper Networks, Inc., Ciena, Alcatel-Lucent, Samsung, CommScope, Corning, Mitsubishi Electric Corporation, Indus towers, ECI Telecom, Nortel, LG, HUBER+SUHNER, Telefonaktiebolaget, Extreme Networks, Inc., Ribbon Communications Operating Company, Inc, AltioStar Networks, Inc., Altran Technologies, Check Point Software Technologies Ltd., Fortinet, Palo Alto Networks, Ierra Wireless, Inc.

Regions: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

Countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.
