

# The Chemical Marketplace "BuyChemJapan" is Now Online

*International buyers can finally open communications with, request samples/quotes from, and make purchases from every major chemical manufacturer in Japan.*

OSAKA CITY, OSAKA PREFECTURE, JAPAN, September 6, 2021 /EINPresswire.com/ -- BuyChemJapan Corporation (Headquartered: Osaka, CEO: Masa Oguchi) aims to improve the transparency and convenience of doing business with Japanese chemical manufacturers through the launch of the world's first online direct communication chemical marketplace, named "BuyChemJapan", which is now online at [www.buychemjapan.com](http://www.buychemjapan.com).

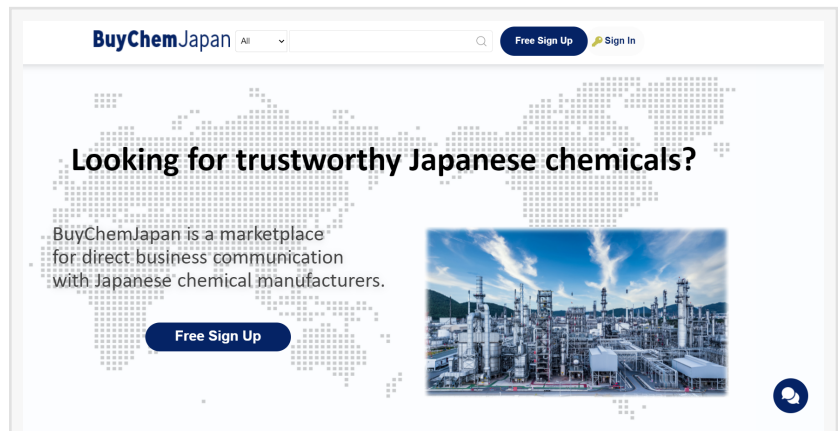

BuyChemJapan allows you to centrally manage your business history through filtering, request samples, documents and quotations, hold negotiations, make orders, and conclude contracts in line with the business flow of the chemical industry. Its user experience includes...

## 1. Top page

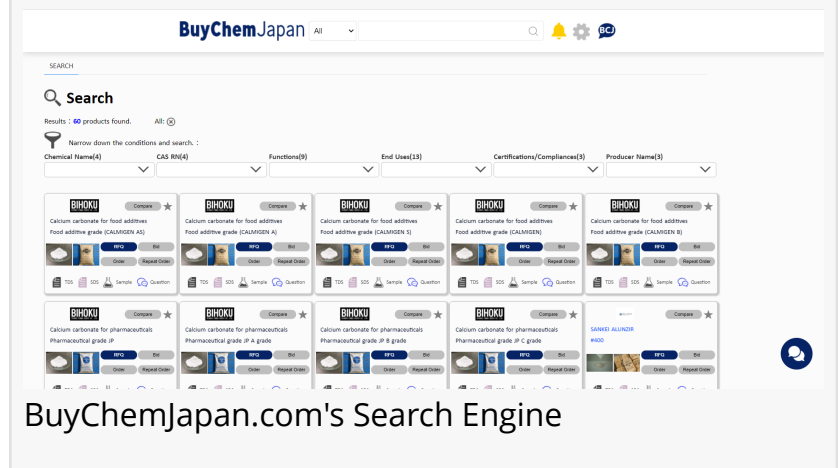

Whether manufacturer or buyer, you sign-in via the top page to access your account, where reliable communication and transactions between companies can be guaranteed.

## 2. Search Functionality / Chemical Thumbnails

Searches can be conducted not only by a chemical's name or CAS number, but also by function, intended application, and other aspects. You can also request samples and/or quotations by a single click of the relevant button on the thumbnails of your desired product.

The front page of [www.buychemjapan.com](http://www.buychemjapan.com)

BuyChemJapan.com's Search Engine

### 3. Shop Front (Manufacturer / Product pages)

Each manufacturer and product on BuyChemJapan has its own page, known as its "Shopfront". On this page, you can find all the information and details you will need to make an informed purchase.

### 4. Chat

BuyChemJapan's Chat feature allows for direct one-on-one communication with the manufacturer of the product you are buying. If desired, group communication involving related-parties is also available. If there are any issues or concerns regarding the product, they can be solved in a timely and straightforward manner by direct contact with the company you are buying from.

### 5. Request for Quotation (RFQ)

After finding the desired product via BuyChemJapan's comprehensive search engine, clicking the RFQ button on the product thumbnail will take you through to the Request for Quotation form. Here, you can enter details such as typical order quantity, the intended application, preferred currency, and indenter commission and make their request directly to the manufacturer.

### 6. Order

When the manufacturer gives you their quotation, and you accept it, then the order is confirmed; from this point you will move on to concluding your sales contract.

The value of BuyChemJapan as an online chemical marketplace is inherent in its status as being the first of its kind. The following is a list of the services it provides, all of which are free for users.

The image shows two screenshots from the BuyChemJapan website. The top screenshot is a product page for Ammonium acetate. It features a search bar at the top with 'All' selected, a search icon, and notification icons. Below the search bar is a 'Product Features' section with three bullet points: 'Top market share in Japan.', 'As our products have few impurities, they are ideal for electronic material applications such as etching agents for electronic substrates and cleaning agents for metals.', and 'We have Reagent Special Grade which is guaranteed purity 97.0% min.'. There are two images: one showing the white crystalline appearance of the product and another showing a yellow paper bag of 20 kg. Below the images is a 'Basic Information' section with a 'CAS number' field containing '631-61-8'. The bottom screenshot is a chat window titled 'Ammonium acetate Industrial ...' from 'Yoneyama Kagaku Kogyo Kaisha, Ltd.'. The chat history shows a customer message: 'Thank you for your offer. However, your price is too high. I definitely need below USD1,000.00/kg. CIF, as the other maker is offering this price level.' followed by a timestamp '[Aug. 25, 2021] 08:07' and a supplier response: 'Thank you for your offer. Frankly, USD1,000.00/kg. is very severe for us, however, we will check our production cost carefully and let you know.' signed 'Kentaro Naitoh'. Another timestamp '[Aug. 25, 2021] 08:09' is followed by a customer reply: 'Thank you for your response. Looking forward to your positive response.' At the bottom of the chat window is a text input field with the placeholder 'Enter the message...' and icons for sending and deleting messages.
