

Arizona US Navy Veterans Lung Cancer Advocate Urges a Navy Veteran with Lung Cancer Who Had Navy Asbestos Exposure Prior to 1982 to Call Attorney Erik Karst of Karst von Oiste About Compensation That May Exceed \$100,000

PHOENIX , ARIZONA, USA, November 9, 2021

/EINPresswire.com/ -- The Arizona US Navy

Veterans Lung Cancer Advocate says, "If you are a Navy Veteran who has just learned you have lung cancer---please call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303---if before 1982 you had significant exposure to asbestos on any type of navy ship, a submarine or

“

If you are a Navy Veteran and you have lung cancer-call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303 about compensation-if before 1982 you had navy asbestos exposure.”

Lung Cancer Advocate*

at a shipyard where your ship or submarine was undergoing repairs. Financial compensation for a person like you might be in the hundreds of thousands of dollars and the claim does not involve suing the navy. In addition, it does not matter if you smoked cigarettes.

"The typical Navy Veteran we are trying to identify served in the navy in the 1950s. 1960s or 1970s and they are over 60 years old. To qualify for financial compensation the Navy Veteran's asbestos exposure must have occurred before 1982 and their lung cancer diagnosis must have

been recent. The typical Navy Veteran we talk with is stunned to learn there might be significant financial compensation for them. If the individual---we have just described sounds like your husband or dad-please call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303 for additional information." www.karstvonoiste.com/

The US Navy Veterans Lung Cancer Advocate is offering to assist people with asbestos exposure lung cancer in Phoenix, Tucson, Mesa, Chandler, Glendale, Gilbert, Tempe. Peoria, Prescott or

anywhere in Arizona. www.karstvonoiste.com/

Individuals in the state of Arizona could have been exposed to asbestos while working at a power plant, at an industrial facility, at a steel mill, at an automobile manufacturing facility, at a chemical plant, as a plumber, a boiler technician, as an auto repairman, as an electrician, or in the construction industry. In most cases, the exposure to asbestos caused mesothelioma at one of these types of workplaces and the exposure took place in the 1950's, 1960's, 1970's, or 1980's. Mesothelioma or asbestos exposure lung cancer typically takes three to five decades to appear.

The US Navy Veterans Lung Cancer Advocate says, "If your husband, dad, coworker or neighbor has just been diagnosed with lung cancer and you know they had significant exposure to asbestos in the navy, at a shipyard or while working at a factory, at power plant, public utility, or as a plumber, electrician welder, mechanic or any kind of skilled trades group in any state please have them call us anytime at 800-714-0303. Most people like this never get compensated-even though the asbestos trust funds were set up for them too. We are trying to change this sad fact."

<https://USNavyLungCancer.Com>

According to the American Cancer Society for nonsmokers who have been exposed to asbestos in their workplace the risk of lung cancer is five times that of unexposed workers.

<https://www.cdc.gov/cancer/lung/statistics/index.htm>.

States with the highest incidence of lung cancer include Kentucky, West Virginia, Maine, Tennessee, Mississippi, Ohio, Indiana, Louisiana, Arkansas, Missouri, North Carolina, Rhode Island, Alabama, and Delaware. However, there are people with asbestos exposure lung cancer in Arizona. www.karstvonoiste.com/

For more information about asbestos exposure lung cancer and mesothelioma please visit the CDC's website on these topics:

https://www.atsdr.cdc.gov/asbestos/health_effects_asbestos.html.
