COVID-19 Scenario Analysis:

The footwear industry has two sides—one is a retail business and another is the manufacturing side of the business. COVID-19 has impacted both the ends of the business leading to zero revenue from the past few weeks in this market segment for a few companies. The impact of COVID-19 will be long term. A British footwear brand, Clarks has suffered from COVID-19 impact as a drop in sales revenue was witnessed by the brand. As of now, the company has not canceled orders but there are delays due to the pandemic. Hence, the e-commerce platform for selling the product is expected to experience growth.
