

# Marine Lounge Seat Market 2030 - West Marine , Quality Pacific Manufacturing , Thomas Scott Seating , Springfield Marine

*The global marine lounge seat market is experiencing a significant growth due to increase in marine tourism and leisure activities.*

PORTLAND, OR, UNITED STATES, February 2, 2022 /EINPresswire.com/ -- The global marine lounge seat market is experiencing a significant growth due to increase in marine tourism and leisure activities. Marine lounge seat is used in pleasure boats, trawlers, super yachts, workboats, and commercial vessels, mounted over the deck or under the deck as per the application and type of the boat. Moreover, water resistant and water proof material is used such as polyvinyl chloride (PVC) and polyester composite fabrics since it stays tight on the frame and can be made completely water proof. In addition, contouring, backrest angle, proper dimensions, seat height, shock absorption, cushioning, and breathability are some of the factors that make the marine lounge seats comfortable.

Major Market Players:

West Marine, Quality Pacific Manufacturing, Inc., Thomas Scott Seating Ltd, Swann Systems Ltd., Springfield Marine Company, Mercury Marine, Ullman Dynamics, Tappezzeria Nautica Beggio, Todd Marine Products, and The Wise Company, Inc.

Marine seats market has been growing consistently during past few years, but the COVID-19 pandemic is expected to dent the market growth, since manufactures will mitigate losses due to lack of marine seat demand.COVID-19 has forced marine seat manufacturers to cease their production, order delivery, and installation operations due to lack of site access, interrupted supply chain, and manpower shortage.

In the wake of COVID-19 spread there is an increased vigilance globally against the consumption of animal & sea-food products, as a result marine trade and fishing activities has been disrupted due to plummet in demand for sea-food.

Surge in marine tourism & adventure sports, increase in demand for custom-built marine seats for cruise, boats, yachts, and other marine vessels, and rise in adoption of 3D printing as on-demand production enable are the factors that drive the global marine lounge seat market.

However, high maintenance cost and market fragmentation hinder the market growth. On the contrary, growth in marine infrastructure, increase in marine trade activities, and recent research and development on marine seats to make it better and provide more comfort present new pathways in the industry.

The demand for boats and other marine vessels for leisure and sporting activities is on the rise. Additionally, the growing number of boat shows & events has been attracting consumers to invest in leisure marine vessels. In addition, growing consumer fascination toward luxurious maritime travel is prompting cruise operators to substantially increase their passenger seating capacity adding to the growing market of global marine seats.

Demand for custom-built marine seats is on the rise, to fulfill user pursuit of comfort, ergonomics and technology. Meanwhile, marine seats manufacturers continue capitalizing on growing demand for customized solutions as boat operators and owners are continuously seeking options to replace their original seating with premium customized marine seats. Such increasing demands for customization are expected to drive the global marine seats market.
