collaborations, agreements, product launches, and deals and partnerships, among others,

Top companies in the Energy as a Service market include:

- WGL Energy
- ENGIE
- Schneider Electric
- Siemens
- Johnson Controls
- General Electric
- EDF Renewables
- Edison International
- Alpiq
- Enel X

Market Overview:

Power and energy industry comprises of key companies operating in fuel, petroleum, natural gas, and nuclear power markets. Constant production of energy and power is imperative for country's economic growth. It also covers exploration and production of oil and gas reserves, oil and gas drilling, and refining industries. Power and energy sector is one of the most diversified sector across the globe. Rapid industrialization and urbanization has increased the dependency on power and energy and industries today consume large amounts of fuel making energy industry a crucial element of today's industrial infrastructure.

With increasing focus on sustainable energy and alternative sources of energy to mitigate global warming, countries today are heavily investing in hydroelectric power, solar power, and wind energy. Widespread demand for energy and power has led to the emergence of lucrative growth opportunities in the market and accelerated revenue growth of the retail energy markets. However, negative environmental impact of prolonged use of fossil fuels, depletion of energy resources, and increasing amount of pollutants in the atmosphere are some key restraining factors. Increasing automation in power and energy industry, integration of advanced technology like AI, growing focus on hybrid and electric vehicles, and increasing emphasis on improve energy variability and costs for residential and commercial buildings and vehicles are set to open new paths for the growth of the energy and power sector.
