This function also significantly impedes delivery of drugs to the brain. In case of central nervous system disorders, it is required to deliver drugs across this barrier and provide the appropriate therapeutic effect to the targeted location. Ongoing technological developments in magnetic resonance imaging technology that helps to identify blood-brain barrier and introduction of advanced nanotechnology and ultrasound applications is expected to drive market revenue

growth going ahead.

The study dives deep into the profiles of top market players and their key financials. This comprehensive report is not only for business analysts and any existing and new entrant can use it when designing their business strategies. The research is one of its kind global analyses of aspects such as import and export status, supply chain management, profit and gross margin worldwide for the forecast period 2020 - 2027. Extensive coverage of statistics associated with recent events including acquisition and mergers and strengths and weaknesses of a company forms an important part of the study on the Blood-Brain Barrier (BBB) market.

Market Dynamics:

The report offers insightful information about the market dynamics of the Blood-Brain Barrier (BBB) market. It offers SWOT analysis, PESTEL analysis, and Porter's Five Forces analysis to present a better understanding of the Blood-Brain Barrier (BBB) market, competitive landscape, factors affecting it, and to predict the growth of the industry. It also offers the impact of various market factors along with the effects of the regulatory framework on the growth of the Blood-Brain Barrier (BBB) market.

In January 2021, Nanoform Finland signed an agreement with Herantis Pharma. This agreement will help both companies to improve blood-brain-barrier penetration in nasal drug delivery routes for Parkinson's therapies using nanoparticle technology.

Parkinson's disease segment accounted for major revenue share in global market in 2020 and is expected to register a 25.1% CAGR throughout the forecast period. This is attributed to major prevalence of Parkinson's Disease among an expanding global patient pool.

Asia Pacific is expected to register the fastest revenue CAGR throughout the forecast period, which can be attributed to rapid advancements in pharmaceutical and healthcare infrastructure, increasing aging population, major prevalence of neurological disorders, increasing number of hospitals and long-term care facilities in countries across the globe.

Key players operating in the market are Allon Therapeutics, Inc., Angiochem Inc., Armagen Technologies, Inc., Bristol-Myers Squibb, BiOasis Technologies, Inc., Sanofi Genzyme, CarThera, Cephalon Inc., Nanomerics, and F. Hoffman La-Roche AG.

The current COVID-19 pandemic is expected to have an effect on the growth of the Blood-Brain Barrier (BBB) industry majorly attributable to the movement restrictions and impact on the supply and demand due to the lockdowns. The COVID-19 pandemic has affected several sectors of the global market, and the Blood-Brain Barrier (BBB) sector is expected to feel the impact of

the pandemic. The economic slowdown and dynamic changes in the demands will further affect the growth of the industry. The report covers the impact analysis of the COVID-19 pandemic on the overall Blood-Brain Barrier (BBB) industry.

Radical Highlights of the Blood-Brain Barrier (BBB) Market Report:

Comprehensive overview of the Blood-Brain Barrier (BBB) market along with analysis of the changing dynamics of the market

Growth Assessment of various market segments throughout the forecast period

Regional and global analysis of the market players, including their market share and global position

Growth strategies adopted by key market players to combat the impact of the COVID-19 pandemic on the market

Impact of the technological developments and R&D advancements on the Blood-Brain Barrier (BBB) market

Information about profit-making strategies and developmental strategies of major companies and manufacturers

Insightful information for the new entrants willing to enter the market

Details and insights about business expansion strategies, product launches, and other collaborations

The report incorporates advanced analytical tools such as SWOT analysis, Porter's Five Forces Analysis, feasibility analysis, and investment return analysis

The report further studies the latest technological and product developments of the regions and offers key insights into current and emerging trends. It also studies investment opportunities, consumption and production patterns, supply and demand, consumer demand and behavior, economic growth, macro- and micro-economic growth factors, regulatory framework, government support, and presence of key players in each region. The key regions list comprises of North America, Latin America, Europe, Asia Pacific, and Middle East & Africa along with their market size, market share, and revenue CAGR with key factors influencing the market growth.

For the purpose of this report, Emergen Research has segmented the global blood-brain barrier (BBB) market based on application, technology, end-use, and by region:

Application Outlook (Revenue, USD Billion; 2018–2028)

Alzheimer's Disease

Epilepsy

Parkinson's Disease

Multiple Sclerosis

Hunter's Syndrome

Brain Cancer

Technology Outlook (Revenue, USD Billion; 2018–2028)

Bispecific Antibody RMT Approach

Trojan Horse Approach

Increasing Permeability

Passive Diffusion

Others

End-Use Outlook (Revenue, USD Billion; 2018–2028)

Hospitals

Surgical centers

Research Institutes

Others

Key questions addressed in the report:

Who are the leading players dominating the global Blood-Brain Barrier (BBB) Market?

Which factors could potentially hamper the global market growth during the forecast period?

Which regional market offers the most attractive growth opportunities to the companies operating in this market?

How is the raw material availability affecting the demand for Blood-Brain Barrier (BBB) in this industry vertical?
