

2022 Los Angeles Times Festival of Books presents Dellia

High Fantasy Novelist Joins the Los Angeles Times Festival of Books

LOS ANGELES, CALIFORNIA, UNITED STATES, April 20, 2022 /EINPresswire.com/ -- David Scidmore's *Dellia* (The Ever-Branching Tree) is an epic high-fantasy novel that blends alternate worlds, action, adventure, and dire peril, with political intrigue, a generous dollop of romance, and a pinch of humor. David's work is set to appear at [Authors Press'](#) exhibit for the Los Angeles Times Festival of Books, slated for April 23 & 24 at the University of Southern California Campus.

The narrative revolves around Jon, a physicist transported to an alternate dimension caused by an accident in his lab. He finds himself in the realms of Meerdon, a primitive world of impossible phenomena and terrifying creatures. Utterly bewildered by the series of events, he crosses paths with the titular Dellia, a compassionate warrior and protector sent by a council that believes Jon is the subject of an ancient prophecy.

With themes of betrayal, love, and redemption, David's work is the quintessential novel of the fantasy genre.

“

She shook her head. "Sitting in your lab, alone, with your one experiment, is a waste of human capital.""
