LLC registration procedure in American Samoa

For seamless registration, the American Samoan government has a dedicated website and online portal.

Users simply need to start the process by registering themselves on the site. The government also suggests keeping the EIN handy before starting the LLC application process.

Businesses need to follow these steps for successful LLC registration:

Select a business name that does not match with an existing business entity. This unique business name must have the suffix LLC. Offshore companies must not use the following terms or associated activities like Bank, Building Society, Assurance, Chartered, Cooperative, Chamber of Commerce, Insurance, Royal, Imperial, or Municipal.

The companies must have a local registered agent and office to process services and handle other official notices.

An LLC must have a minimum of one member or shareholder. Although, these members do not have to be American Samoa or United States citizens.
