

US Deputy Secretary of the Treasury Wally Adeyemo Meets DrKumo in Exclusive AAPI Founders Roundtable

Deputy Secretary of the Treasury addresses the important role AAPI-owned businesses play in growing the national economy.

BUENA PARK, CALIFORNIA, UNITED STATES, May 16, 2022 /EINPresswire.com/ -- US Deputy

“

The pandemic and the following recovery have been a difficult period for our country and the success of entrepreneurs and innovators play a crucial role in getting our country back to prosperity.”

Dr. Kelly Nguyen, CEO of DrKumo Inc.

Secretary of the Treasury Wally Adeyemo met with Dr. Kelly Nguyen from DrKumo Inc. in an effort to collaborate with AAPI founders from the greater Los Angeles Area in recognition of the start of AAPI Heritage Month to combat challenges faced by the business community. DrKumo, leader in Connected Health Technology, addresses the initiatives to contribute to the growth of the national economy through its state-of-the-art Remote Patient Monitoring technology.

The National Asian Pacific Islander American Chamber of Commerce and Entrepreneurship (National ACE) and Asian Business Association (ABA) hosted Deputy Secretary of the

Treasury Wally Adeyemo, addressing the important role AAPI-owned businesses play in growing the national economy.

“The roundtable participation was very encouraging and thoughtful. The AAPI business owners representing various important industries which contribute to the growth of the economy had a very productive roundtable. The pandemic and the following recovery have been a difficult period for our country and the success of entrepreneurs and innovators play a crucial role in getting our country back to prosperity. I'd like to thank National ACE, ABA, and Deputy Secretary of the Treasury Adeyemo for this opportunity,” Dr. Kelly Nguyen, CEO of DrKumo.

Deputy Secretary of the Treasury addressed efforts to advance diversity and opportunity for minority-owned businesses and entrepreneurs through recovery programs such as the Emergency Capital Investment Program (ECIP) and the State Small Business Credit Initiative (SSBCI). Deputy Secretary Adeyemo acknowledged that the recovery from the pandemic and an increase in unprovoked attacks on AAPI individuals present a dual challenge for the AAPI

business community, and he invited attendees to share their perspectives on Treasury's programs, as well as the opportunities and challenges that lie ahead for AAPI entrepreneurs in general.

“From the perspective of a woman-owned healthcare technology startup, it is vital for health-tech entrepreneurs to continuously innovate and promote diversity and inclusion despite the challenges among AAPI businesses. DrKumo [revolutionizes remote patient monitoring](#) to reach more people and provide advanced care delivery in underserved communities,” Dr. Nguyen.

DrKumo provides continuous real-time remote patient monitoring technology for chronic care management to address challenges in healthcare by [bridging the gaps in care delivery access](#) among Indigenous people, disabled Native American veterans, military veterans, women in need, and their families—especially those who live in rural areas where there is a lack of access to hospitals and clinics.

The event took place at Taste of MP, an AAPI-owned restaurant in Monterey Park on May 3, 2022.
