

# Global Cattle Feeds Market Trends, Strategies, Opportunities For 2022-2026

*The Business Research Company's Cattle Feeds Global Market Report 2022: Market Size, Trends And Forecast To 2026*

LONDON, GREATER LONDON, UK, June 21, 2022 /EINPresswire.com/ --

According to 'Cattle Feeds Global Market Report 2022 – Market Size, Trends, And Global Forecast 2022-2026' published by The Business Research

Company, the cattle feeds market size is expected to grow from \$62.46 billion in 2021 to \$64.46 billion in 2022 at a compound annual growth rate (CAGR) of 3.21%. The growth in the market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. As per TBRC's cattle feeds market outlook the market size is expected to reach \$73.19 billion in 2026 at a CAGR of 3.22%. An increase in government subsidies for cattle is significantly contributing to the cattle feeds industry growth.
