

ISSA Los Angeles Annual Information Security Summit XII

World-Renowned Experts in Security and Privacy Will Be Gathering with InfoSec Leaders at the Beach in Santa Monica, Ca.

SANTA MONICA, CA, UNITED STATES, July 18, 2022 /EINPresswire.com/ -- The Los Angeles Chapter of the Information Systems Security Association (ISSA-LA) presents world-renowned experts in security and privacy at this year's ISSA-LA Security Summit XII at the Annenberg Beach House in Santa Monica, California on September 20 – 22, 2022.

Always Great Talks at the ISSA-LA Summits

Our educational sponsor is Claremont Graduate University and the Summit's Keynote Speakers include:

“

The ISSA LA Summit was really, really awesome!! I learned so much that I can use, all the knowledge, immediately at work! I especially enjoyed the first two days of intensive training classes.”

Mary Wang, CISSP, CEH, CNDA

- Adriana Sanford, award-winning global threats and global privacy expert, Chilean-American international TV commentator, former Fortune 10 regional counsel
- Cleve Adams, five-time tech CEO and technology industry veteran, who started Cybersecurity Titan Websense (now Forcepoint)
- Deviant Ollam, globally recognized physical penetration specialist

A Teqball demonstration will be provided for entertainment by U.S. National Teqball Federation President Ajay Nwosu. For more information about the ISSA-LA Summit XII and for registration details, please visit <https://summit.issala.org/>

Since ISSA-LA is all about the community, Summit XII is open to anyone interested in learning more about information security. In particular, it is recommended that the following attend the event so they can keep abreast of the latest in information security and privacy:

- Business executives and senior managers
- Business professionals in law, accounting, insurance, healthcare, banking, retail, and manufacturing
- Information Systems Directors, systems administrators, and IT practitioners
- Information Security Directors, managers, researchers and practitioners
- Privacy and forensics professionals
- Aspiring students interested in the business and information technology sector

About the Information Systems Security Association (ISSA):

The Information Systems Security Association is a not-for-profit, international organization of information security professionals and practitioners. It provides educational forums, publications and peer interaction opportunities that enhance the knowledge, skill and professional growth of its members. The primary goal of ISSA is to promote management practices that will ensure availability, integrity and confidentiality of information resources. For more information or to register, please visit: <http://www.issala.org/>. Join the movement today!
