Global Rehabilitation Devices Market: Competitive Landscape

This section of the report identifies various key manufacturers of the market. It helps the reader understand the strategies and collaborations that players are focusing on combat competition in the market. The comprehensive report provides a significant microscopic look at the market. The reader can identify the footprints of the manufacturers by knowing about the global revenue of manufacturers, during the forecast period of 2021 to 2028.

Top Companies:

Medline Industries, Inc
Drive DeVilbiss Healthcare
Invacare Corporation
Ekso Bionics
Dynatronics Corporation
GF HEALTH PRODUCTS INC.
Caremax Rehabilitation Equipment Co. Ltd
Hill-Rom Services
Hospital Equipment Mfg. Co.
Roma Medical Aids Ltd.

The study conducts SWOT analysis to evaluate strengths and weaknesses of the key players in the Rehabilitation Devices market. Further, the report conducts an intricate examination of drivers and restraints operating in the market. The report also evaluates the trends observed in the parent market, along with the macro-economic indicators, prevailing factors, and market appeal according to different segments. The report also predicts the influence of different industry aspects on the Rehabilitation Devices market segments and regions.

IMPACT OF COVID-19 ON REHABILITATION DEVICES MARKET

The COVID-19 pandemic has impacted all industries, including rehabilitation devices market. the

COVID-19 situation is expected to boost the demand for virtual rehabilitation programs. By using apps patients can record their diagnostics and share with rehab professionals to receive personalized coaching. In addition, rehabilitation has found to have a positive effect on the health outcomes of patients with severe COVID-19. As per the research study published in the Journal of Physical Therapy Science in August 2020, physical therapy for COVID-19 patients reduces the mortality rate, hospital admission time, and medical expenses. Further, many organizations have adopted rehabilitation for COVID-19 management. For instance, in September 2020, Mayo Clinic launched the COVID-19 rehab program in the US. In May 2020, SWORD Health launched a remote pulmonary rehabilitation program to meet shortage of rehabilitation programs for COVID-19 patients.

What questions does the Rehabilitation Devices Market report answer about the regional reach of the industry.

The report claims to split the regional scope of the Rehabilitation Devices Market into North America, Europe, Asia-Pacific, South America & Middle East and Africa. Which among these regions has been touted to amass the largest market share over the anticipated duration?

- How do the sales figures look at present how does the sales scenario look for the future?
- Considering the present scenario, how much revenue will each region attain by the end of the forecast period?
- How much is the market share that each of these regions has accumulated presently?
