The patient recovery chair market is driving due to the growing adoption and availability of patient recovery chair, particularly in major countries. However, high costs of patient recovery chair and presence of alternative products such as recovery beds restrain the market growth during the forecast period. Moreover, growing prevalence of cancer and various chronic diseases and medical conditions that necessitates surgery boost the growth of the market for patient recovery chair.

Major key players covered in this report:

Akrus GmbH & Co KG
Ambassador Products
Carevel Medical Systems Private Limited
Fresenius Medical Care Seating (Australia) Pty Ltd.
Herman Miller, Inc.
Lojer Group
McFee Technologies Company
MTI Medical Technology Industries, Inc.
NovyMed International BV

Market Segmentation:

The patient recovery chair market is segmented on the basis of product type, application and end user. Based on product type, the market is segmented as semi-automatic patient recovery chair, fully automatic patient recovery chair and manual patient recovery chair. On the basis of application, the market is categorized as face down recovery, oncologic recovery, dental recovery, gynecologic recovery and others. On the basis of end user, the market is categorized as hospitals, specialty clinics, ambulatory surgical centers and homecare settings.
