

# Digital Signature Global Market Estimated To Grow At 32% Rate

*The Business Research Company's Digital Signature Global Market Report 2022 – Market Size, Trends, And Forecast 2022-2026*

LONDON, GREATER LONDON, UK,  
October 26, 2022 /EINPresswire.com/ --

As per The Business Research Company's "Digital Signature Global Market Report 2022", the [digital signature market](#)

is expected to grow from \$3.79 billion in 2021 to \$5.10 billion in 2022 at a compound annual growth rate (CAGR) of 34.7%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, surge in commodity prices, and supply chain disruptions, effecting many markets across the globe. The digital signature market is expected to reach \$15.63 billion in 2026 at a CAGR of 32.3%. Supporting policies by the governments of various nations drove the market.

## Key Trends In The Digital Signature Market

The digital signature solutions providing companies are integrating blockchain technology with the digital signature. The goal of integrating blockchain with a digital signature is to offer users the possibility to certify integrity and time stamp.

## Overview Of The Digital Signature Market

The digital signature market consists of sales of digital signature solutions and related services. A digital signature is an electronic signature and is equivalent to a handwritten signature or stamped seal. It offers more inherent security and is expected to solve the problems of tampering and impersonation. The digital signature solutions include software and hardware solutions, and related services.
