Dental practice management software is designed to help dentists to tackle the unique challenges such as billing online appointment bookings, and accounting. These solutions are easy-to-use cloud-based software that helps to make clinical and administrative routines run smoother and deliver powerful tools for managing dental clinic. The dental practice management software offers templates designed for dental practices, capability to import and organize X-rays, and tooth and gum graphics. Moreover, they provide a web portal for patient education modules, scheduling, billing, and coding support.

Based on component, the global dental practice management software market is segmented into scheduling software, patient communication software, invoice/billing software, insurance management software, and other components. In 2019, the scheduling software segment held the largest share of the market; whereas, the patient communication software segment is expected to grow at the fastest rate during the forecast period, as it enables the dentist clinics as well as hospitals to communicate efficiently with the patients.

The major players operating in the dental practice management software market are, Carestream Dental, LLC.; Curve Dental, Inc.; Datacon Dental Systems; Epic Systems Corporation; DentiMax; Henry Schein, Inc.; Patterson Dental Supply, Inc.; Gaargle Solutions Inc.; NXGN Management, LLC; and Compudent Systems Inc.; among others.
