Global musculoskeletal diseases treatment market, based on the disease into arthritis, osteoarthritis, osteoporosis, spondylitis, and others. The arthritis is the largest segment among the disease segment in the musculoskeletal diseases treatment market in 2017 and is also anticipated to hold the largest market in the year 2025 owing to the increasing prevalence of the disease and the higher acceptance of the population for the MRI for the diagnosis. However, the spondylitis segment is fastest growing segment and is accounted to grow at the highest CAGR during the forecast period.

The major players operating in the musculoskeletal diseases treatment market include General Electric, Koninklijke Philips N.V., Siemens AG, Canon Medical Systems Corporation, Hitachi, Ltd., Accuray Incorporated, MR Solutions, Alltech Medical Systems, Terason Division Teratech Corporation, and Echo-Son SA. For instance, in September 2018, Royal Philips launched the Ingenia Ambition X 1.5T MR. The product is the latest advance in the Ingenia MRI portfolio, that comprises fully-digital MRI systems, healthcare informatics and a range of maintenance and life cycle services for integrated solutions that empower a faster, smarter, and simpler path to enabling a confident diagnosis. The developments performed by the companies are helping the

market to grow in the coming years.

The report segments the global musculoskeletal diseases treatment market as follows:

Global Musculoskeletal Diseases Treatment Market – By Disease

Arthritis
Osteoarthritis
Osteoporosis
Spondylitis
Others

Global Musculoskeletal Diseases Treatment Market – By Imaging Modality

Magnetic Resonance Imaging (MRI)
Computed Tomography (CT)
Ultrasound
Others
