The market for nutrition lipid is concentrated with some very well-established players. Some of the key players in the nutrition lipid market include Archer Daniels Midland Company, BASF SE, Croda International Plc, Koninklijke DSM N.V., Neptune wellness solutions Inc, Nordic, Naturals, Inc., Omega Protein Corporation, Pelagia AS, Pharma Marine AS, and Polaris among others.

Chronic diseases are swiftly increasing worldwide. Nearly half of chronic disease deaths are attributable to cardiovascular diseases. However, obesity and diabetes are also affecting a large proportion of the population. Several factors have progressed in the prevention of chronic diseases such as low fat intake, healthy diet, etc. Omega 3, a type of nutrition lipid, is swiftly becoming an essential tool in mainstream medicine. Omega 3 has health benefits for every age group. They protect against chronic disease such as asthma, cancer, arthritis, etc. and other major diseases. Omega-3 tune down the body's infection and help prevent chronic diseases.

Also, a lower ratio of omega-6 to omega-3 is more appropriate to reduce the risk of numerous chronic diseases and have become epidemics in most western societies.

Therefore, Nutrition Lipid has emerged as a premium substitute for Portland cement for the building and construction industry. Rising awareness of chronic diseases and growing use of omega 3 in the pharmaceutical industry coupled with rising R&D activities across the globe is boosting the market. Furthermore, the growing consumption of enhanced medication is anticipated to drive the demand for omega 3-based products across the globe over the forecast period.
