

Yonkers Plumbing Company Celebrates 10 Years Serving Westchester County Customers

Sometimes the best things happen when no one is expecting them to—and that's what happened when Flotechs Plumbing founders started a business from scratch.

YONKERS, NEW YORK, UNITED STATES, January 24, 2023 /EINPresswire.com/ -- Flotechs Plumbing & Heating, a local plumbing company, serving homeowners, renters, and business owners in Yonkers and throughout Westchester County, has been providing high-quality plumbing solutions for a decade.

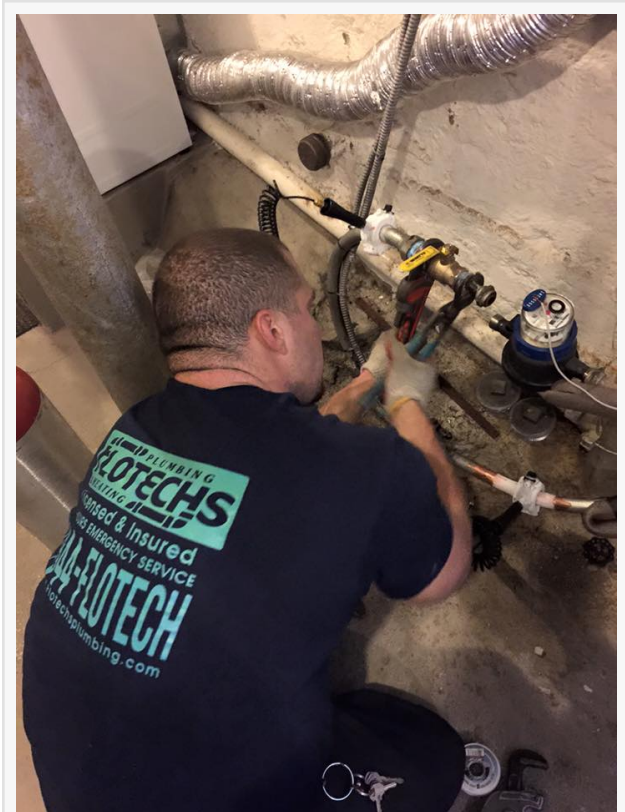

2023 marks the company's tenth anniversary of helping customers with a "no job too small" attitude and [CARE plumbing philosophy](#) guiding them daily.

Flotechs was not always the well-trusted and recognized plumbing company it is today. Its journey began in 2013 at the kitchen table "office" of a private home in Yonkers. Like any small business, Flotechs underwent growing pains. With competition from established plumbing companies, handymen, and moonlight plumbers, the odds were not in favor of the new business on the block.

However, Flotechs overcame the obstacle of anonymity to become a name many customers pass along to friends, family, and neighbors.

"There are generational plumbing companies in Yonkers and throughout the County that have been around for a long time. What we do, how we do it, and most importantly, our team has allowed Flotechs to make a name for itself by delivering quality plumbing work at reasonable prices," says President Josh Benjamin.

Flotechs Plumbing & Heating is proudly accredited by The [Better Business Bureau](#); Flotechs has

an A+ rating (zero customer complaints). It is also a member of [Angi](#) and has received its Super Service Award, supported by 122 verified reviews with a 4.9-star rating. They currently have 116 Google Reviews with a 4.8-star rating which are all testaments to their customers being vocal online about their experience with the company.

“Let’s face it; no one wants to call a plumber - we understand that. Many times our customers or those calling for the first time have some plumbing emergency, so not only do we need to respond to them as soon as possible, we need to calm them down to get a sense of what’s happening so we can help,” Benjamin added.

The company proudly offers various plumbing services such as gas leak detection, plumbing violation correction, high-efficiency boiler installation and repairs, oil-to-gas conversions (in parts of Northern Westchester), emergency calls, and plumbing for remodels and new construction.
