Key companies profiled in this research report are:

- Health Catalyst, Inc.
- Nextgen Healthcare Information System, LLC
- McKesson Corporation
- Optum, Inc.
- Oracle Corporation
- eClinicalWorks
- Allscripts Healthcare, LLC
- General Electric Company
- Cerner Corporation
- Orion Health group of companies

North America Health Information Exchange Market Segmentation:

By Set Up

- Private
- Public

By Type

- Direct Mediated
- Query-based
- Consumer Mediated

By Implementation Model

- Hybrid
- Centralized
- Decentralized

By Application

- Web Portal Development
- Internal Interfacing
- Workflow Management
- Other Applications

By End User

- Healthcare Providers
- Healthcare Payers
- Pharmacies

By Deployment

- On-Premise
- Cloud Based

By Country

- US
- Canada
- Mexico

The rapid growth of health information technology has led to the increase in exchange of patient medical information through electronic health records (EHRs). The systems can collect patient information as well as share the information with other healthcare professionals involved in the patient's care. The governments, healthcare authorities, and market players are actively supporting the adoption of EHR systems to streamline the process of healthcare activities. Moreover, the systems enable efficient data gathering and exchange, allowing healthcare professionals to enhance the quality of the treatment. According to a data published on NCBI, in 2015, around 91.0% of the Canadians had their data registered on EHRs, and an estimated 91,000 physicians were using EHR systems for day-to-day work. Moreover, according to a survey

conducted by Canadian Medical Association in 2017, around 85.0% of the physicians in the country were using EMR systems. Such government initiatives are expected to drive the adoption of EHR systems, which will eventually propel the growth of the health information exchange market by 2028.

The research provides answers to the following key questions:

1. What is the estimated growth rate of the market for the forecast period 2020–2027? What will be the market size during the estimated period?
2. What are the key driving forces responsible for shaping the fate of the North America Health Information Exchange market during the forecast period?
3. Who are the major market vendors and what are the winning strategies that have helped them occupy a strong foothold in the North America Health Information Exchange market?
4. What are the prominent market trends influencing the development of the North America Health Information Exchange market across different regions?
5. What are the major threats and challenges likely to act as a barrier in the growth of the North America Health Information Exchange market?
6. What are the major opportunities the market leaders can rely on to gain success and profitability?

The study conducts SWOT analysis to evaluate strengths and weaknesses of the key players in the North America Health Information Exchange market. Further, the report conducts an intricate examination of drivers and restraints operating in the market. The report also evaluates the trends observed in the parent market, along with the macro-economic indicators, prevailing factors, and market appeal according to different segments. The report also predicts the influence of different industry aspects on the North America Health Information Exchange market segments and regions.
