

BluWorkz Launches to Empower Underserved Workforce in Supply Chain and Logistics

SAVANNAH, GA, UNITED STATES, February 1, 2023 /EINPresswire.com/ -- Really-Virtual, a veteran-operated business that provides workforce development services, has rebranded to [BluWorkz](#).

The company, which recently relocated from Yorba Linda, CA to Savannah, GA is focused on helping underserved communities gain employment in the supply chain and logistics industry using virtual reality and other digital training tools.

BluWorkz bridges the gap between potential and opportunity by modernizing how applicants and job-seekers showcase and acquire skills in a largely overlooked segment of the workforce. BluWorkz recognizes that despite the large investments in upskilling and reskilling programs, there has been a lack of attention on helping those primarily seeking entry-level or non-credentialed work.

“

There are 50 million people in the United States who earn low wages. BluWorkz is committed to empowering these individuals to build successful careers in supply chain/logistics by using VR technology.”
