The banking & financial industry experienced severe disruptions in 2020 and 2021 after the onset of the COVID-19 pandemic. The pandemic adversely impacted banks' credit portfolios, owing to the unprecedented increase in unemployment and collapse of economic activities, which led to the inability and reluctance among customers and businesses to pay the interest

amounts. Based on a report by Genpact, in 2020, the global mortgage forbearance increased sharply by ~3,000%. Similarly, automotive loan modification requests increased ~10-times across the industry, while inquiries for credit cards, new mortgages, and automotive loans dropped by 30–50% in 2020 compared with 2019. In response to these changes in statistics, banks and financial institutions had to take certain measures to manage and mitigate credit risks, creating a demand for liquidity asset and liability management software. This software solution allows banks and financial institutions to optimize net interest margins, and develop contingency funding plans for ongoing events. Hence, the solution associated benefit is anticipated to boost the liquidity and asset liability management solutions market size over the forecast period

Leading Players operating in the Global Liquidity and Asset Liability Management Solutions Market are:

Experian Information Software, Inc.; Fidelity National Information Services, Inc.; Finastra International Limited; IBM Corporation; Infosys, Ltd.; Intellect Design Arena Limited; Moody's Corporation; Oracle Corporation; SAP SE; and Wolters Kluwer N.V are among the leading players operating in the liquidity and asset liability management solutions market.

Global Liquidity and Asset Liability Management Solutions Market report endows with the key information about the Liquidity and Asset Liability Management Solutions Market industry, including very important facts and figures, expert opinions, and the latest developments across the world. It also describes all the recent developments, product launches, joint ventures, mergers and acquisitions by several key players and brands that are driving the market with the systemic company profiles.

The buy-now-pay-later (BNPL) industry in Europe has witnessed significant growth post-COVID-19 outbreak, owing to the increased e-commerce penetration and economic slowdown. Moreover, the BNPL service is becoming increasingly popular among young consumers owing to the rise in preference for deferred payment for online purchases. Hence, the growing BNPL industry across the UK, Germany, and France, among others, is another factor favoring the liquidity and asset liability management solutions market growth in the region.

Similarly, Asia has been the world's largest regional banking market for a decade, generating more than US\$ 700 billion in pre-tax profits in 2018, accounting for 37% of global banking profits. More than 40 of the world's 100 largest banks by assets are Asian, and they account for ~50% of the market capitalization of the world's 100 largest banks. The vast banking sector in the region is anticipated to create huge opportunities for the liquidity and asset liability management solutions market players. According to the DIGI Race Global Payments Map report, digital payments in China account for ~99% of the country's non-cash transaction volume and 45% of

digital payments globally. Such a rise in digital adoption is likely to boost the liquidity and asset liability management solutions market size across the region during the forecast period.
