Trending Autonomous Military Weapons Market Trend

Acquisitions are a key trend in the autonomous military weapons market. For instance, IMI Systems, a state-owned weapons maker in Israel, was sold to Elbit for \$522 million. IMI systems are the manufacturers of the Uzi sub-machine gun and the Galil assault rifle. It manufactures armored vehicles and also trains security agents. The deal will create a company with a heavy

emphasis on research and development and whose product range will extend from IMI's shoulder-launched missiles, precision-guided mortar munitions, and rocket-propulsion systems to Elbit's portfolio of avionic systems, drones, and intelligence and cybertechnology. Elbit would also relocate the IMI facilities from central Israel to the southern Negev area.

### [Autonomous Military Weapons Market Segments](#)

- By Type: Autonomous, Semi-autonomous
- By Product: Missiles, Rockets, Guided Bombs, Target Pods, Others
- By Platform: Land, Airborne, Naval
- By Geography: The global autonomous military weapons market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.

Autonomous military weapons refer to automated military weapons that, when activated, search, detect, evaluate the threat, track, and attack enemy targets based on sophisticated algorithms without further intervention by a human operator. It requires the integration of several core elements, like a mobile combat platform such as a drone aircraft, ship, or ground vehicle; various types of sensors to scrutinize the surroundings; processing systems to classify objects discovered by the sensors; and algorithms directing the platform to initiate an attack when an allowable target is detected.

Autonomous Military Weapons Global Market Report 2023 from TBRC covers the following information:

- Market size data for the forecast period: Historical and Future
- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- Market analysis by countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

Trends, opportunities, strategies and so much more.

The Autonomous Military Weapons Global Market Report 2023 by The Business Research Company is the most comprehensive report that provides insights and autonomous military weapons analysis on autonomous military weapons global market size, drivers and autonomous military weapons trends, autonomous military weapons global market major players, autonomous military weapons share and competitors' revenues, market positioning, and autonomous military weapons global market growth across geographies. The autonomous military weapons global market report helps you gain in-depth insights on opportunities and strategies. Companies can leverage the data in the report and tap into segments with the highest growth potential.
