Key companies profiled in this research study are:

- Dyconn Faucet
- Fullest LLC
- Kohler Co
- Lixil Corp
- OVE Decors ULC
- Roca Sanitario SA
- Wellis Magyarorszag Zrt

The North America smart toilet market is segmented into the US, Canada, and Mexico. Both, residential and non-residential sectors in North America are pioneers in the adoption of advanced technologies. High disposable income is a major factor that favours the adoption of smart home technologies in North American countries. With the flourishing smart home

technologies, demand for smart toilets is also on rise in the region.

The water crisis has surged significantly across countries such as the US, Canada, and Mexico in the last couple of years. As of October 2022, cities such as Coalinga and California are likely to face serious water shortages by December 2022. According to the estimates of Coalinga City council members, the city is expected to buy water worth ~US\$ 1.3 million from private vendors. As a result, there is an urge of adopting water sustainable solutions across both residential and non-residential sectors to address water shortage issues and save excess costs. The US Federal Government authorities have introduced water per flush limits to reduce water usage in washrooms. For example, the Federal Government has a limit of 1.6 gallons of water per flush. The United States Environmental Protection Agency has set a limit of 1.28 gallons of water under its Water Sense program.

North America Smart Toilet Market Segmentation:

The North America smart toilet market is segmented into product type, connectivity type, end user, and country.

Based on product type, the North America smart toilet market is segmented into wall hung toilet, close-coupled, single floor standing toilet, one-piece toilet, and others. The single floor standing toilet segment held the largest market share in 2022.
