

Blockchain Laboratories selected as Top Innovator for Seed Stage Track at Emerging Tech Venture Summit in Silicon Valley

Blockchain Laboratories selected as Top Innovator for Seed Stage Track at Emerging Tech Venture Summit in Silicon Valley

SHERIDAN, WYOMING, UNITED STATES, March 11, 2023 /EINPresswire.com/ -- Blockchain Laboratories, a technology research and development company and pioneer in web3 SaaS, are excited to announce that Blockchain Laboratories has been selected to present and be featured as one of the Top Innovators on the Seed Stage Track at [Emerging Tech Venture Summit 2023](#) being held May 10th and 11th at the San Jose Convention Center, Silicon Valley, CA.

The graphic features the Netcapital logo at the top left with the text "Invest Raise Capital" to its right. Below this, the title "Blockchain Laboratories" is prominently displayed. Underneath the title is a descriptive sentence: "Blockchain Laboratories is a web3 venture studio developing Impactful DeFi applications and ESG digital assets that have Triple Bottom Line ROI." The central part of the graphic is a green rectangular area containing the Blockchain Laboratories logo (a stylized white icon of a building with circuitry) and the text "BLOCKCHAIN Laboratories" in large white letters, with "Web 3.0 Venture Studio" in smaller white text below it. A play button icon is overlaid on the text. At the bottom of the graphic, it says "Blockchain Laboratories NetCapital RegCF Campaign".

Those interested in the future of blockchain technology and ESGs should [checkout Blockchain Laboratories RegCF on Netcapital](#). As the world becomes more reliant on digital solutions, blockchain technology and DLT is emerging as a critical tool for securing transactions, protecting data, and ensuring transparency. Blockchain Laboratories is at the forefront of this innovation, developing cutting-edge ESG solutions that are helping to shape the future of tokenization.

“

Global ESG assets are on track to exceed \$53 trillion by 2025, representing more than a third of the \$140.5 trillion in projected total assets under management.”

Bloomberg.com

As the world becomes increasingly concerned about social and environmental issues, ESGs have emerged as a critical tool for measuring corporate performance and engaging shareholders and customers. Blockchain Laboratories is at the forefront of this innovation, developing cutting-edge

solutions using digital assets that are helping to shape the future of ESGs.

Blockchain Laboratories has already made significant progress in this area, developing blockchain-based solutions that enhance transparency, traceability, and accountability in carbon markets, and renewable energy projects. These solutions have the potential to transform the way we approach sustainability, enabling companies to measure and report ESG performance with greater accuracy and efficiency.

Using a NetCapital RegCF offering, Blockchain Laboratories is giving anyone (accredited and non-accredited investors) the chance to be a part of this exciting journey in web3. The company is offering a chance for all individuals to invest in the company to support the development of new web3 technologies and ESG solutions that will shape the future of blockchain and tokenization of real world assets.

"Blockchain and Distributed Ledger Technology is transforming the world around us, and we believe that our research and development efforts will be critical in shaping positive outcomes, blockchain technology has the potential to revolutionize the ESG industry," said Boone Bergsma, CEO of Blockchain Laboratories. "By investing in Blockchain Laboratories, you can help us continue to innovate and develop new solutions that will drive the next wave of blockchain applications"

Interested individuals can visit the [Blockchain Laboratories website](#) to learn more about how they can support the future of ESG innovation. With ESG becoming an increasingly critical factor in corporate decision-making, now is the time to get involved with companies that are leading the way.

Investors can feel good about their investment, as Blockchain Laboratories is dedicated to creating innovative solutions that have a positive impact on the world. Those interested can visit <https://netcapital.com/companies/blockchainlaboratories> to learn more about the opportunity to invest, and how to become a part of this exciting journey in web3. With blockchain technology poised to revolutionize the world, now is the time to invest in the companies that are leading the way.
