The starch soft gel capsules are usually derived from natural sources and used as nutritional supplements by patients suffering with various medical conditions. These soft gel capsules are usually free of genetic modifications and are manufactured adhering to strict quality standards. The soft gel capsules are available in gelatin as well as non-gelatin composition for people with vegetarian and non-vegetarian preferences. The soft gels are one of the most common and widely used oral dosage forms of pharmaceuticals as well as nutraceuticals. The starch softgel capsules market is expected to witness a huge growth due to increasing availability of vegetarian softgel capsules and rising preference of pharmaceutical and nutraceutical companies toward softgel capsules are expected to boost the growth of the global starch softgel capsules market.
