# CybeReady Ranked as Leading Cybersecurity Awareness Training Platform on G2

Company Receives Leadership Receives Leadership Badges in Several Areas, Including Easiest Setup/Admin, Highest User Adoption, and High Performer Ranking

SANTA CLARA, CALIFORNIA, UNITED STATES, July 12, 2023 /EINPresswire.com/ -- [CybeReady](#), a global leader in security awareness training, is proud to announce its exceptional achievement of being named for Easiest Setup/Admin, Highest User Adoption, and High Performer in both the mid-market and enterprise categories with a ranking of 4.7/5.0 on G2 – the trusted online

CybeReady

platform for software and service reviews. CybeReady's automated security awareness training platform has earned the recognition of G2's extensive user community, solidifying its role as a leading solution for organizations seeking to strengthen their cyber defense capabilities.

G2, renowned for its unbiased and authentic user reviews, has consistently recognized CybeReady as a leading player in the cybersecurity training space. The company's current position on the popular review site is a testament to its unwavering commitment to delivering advanced capabilities that address the evolving challenges posed by cyber threats.

CybeReady's autonomous learning platform offers businesses an unmatched approach to security education. By combining artificial intelligence, machine learning, and adaptive training techniques, CybeReady empowers organizations to quickly and efficiently train employees and build a resilient human firewall. With an emphasis on interactive and personalized learning experiences, CybeReady's technology ensures that employees are equipped with the knowledge and skills to proactively identify and mitigate cyber concerns.

According to one [customer review on G2](#), "It's the simplicity of the tool that makes it so user-

friendly and effective. The platform takes all the hassle out of having to think of your own phishing simulation emails and provides you, the customer, with lots of data about the number of clicks and who the high-risk groups are. This has proven to be a highly effective training tool for our company which no doubt has saved us from a number of attacks."

Another customer shared: "Campaigns are not generic but tailored to your vertical, sector, or organization. The security tips combined with phishing simulation and rich reporting give the security stakeholders great value."

"We are honored to be recognized by G2 for redefining cybersecurity training," said Eitan Fogel, CEO of CybeReady. "In today's rapidly evolving threat landscape, it is crucial for businesses to level up the defenses against cyberattacks. CybeReady's solution empowers organizations to build readiness for any cyber scenario, hence reducing the risk of costly data breaches and safeguarding sensitive information."

CybeReady's adaptive training methodology offers several key benefits for businesses:

 Adaptive Learning: CybeReady's data-driven solution tailors the training content to each employee risk group, ensuring maximum engagement and knowledge retention. It also delivers targeted reinforcement to address identified knowledge gaps.

 Continuous Improvement: The platform provides multiple learning opportunities so that cybersecurity becomes top of mind across all employee levels, to prepare them for the ever-changing cybersecurity landscape.

 Realistic Simulations: CybeReady's simulated phishing attacks provide employees with practical experience in identifying and responding to phishing attempts, enhancing their ability to recognize and report suspicious activities.

 Measurable Results: The platform offers comprehensive analytics and performance metrics, enabling organizations to track employee progress, identify trends, and measure the effectiveness of their cybersecurity training initiatives.

CybeReady remains committed to empowering businesses by proactively defending against cyber threats with its state-of-the-art training solution. As the digital landscape continues to evolve, organizations can rely on CybeReady to equip their employees with the knowledge and skills needed to combat emerging cybersecurity challenges effectively.
