

Disrupt-X and Rqem Partner to Accelerate IoT-Enabled Industrial Transformation Across Saudi Arabia's Industrial Cities

DUBAI, UNITED ARAB EMIRATES, October 26, 2023 /EINPresswire.com/ -- [Disrupt-X](#), a leading developer and provider of Internet of Things (IoT) solutions platform, has forged a strategic partnership with [Rqem for Smart Solutions](#), a Saudi based company established by The Royal Commission for Jubail and Yanbu. This alliance is designed to fast-track the adoption and integration of Internet of Things (IoT) technologies in the region's industrial framework, solidifying their role as leaders in smart industrial solutions.

The collaboration intends to deploy the robust features of Disrupt-X's ALEF IoT platform, and leverage Rqem's in-depth expertise in enabling industrial investors to adopt fourth industrial revolution technologies. Together, the companies intend to scale new heights in driving digital change beneficial for enterprises and residents alike in Saudi Arabia's Industrial Cities.

Rqem will leverage Disrupt-X's advanced technology and expertise to diversify its service offerings and fuel rapid, sustainable innovation. The shared vision is to provide adaptive IoT solutions, covering everything from seamless device integration to sophisticated data analytics, further solidifying Rqem's role as a leader in smart industrial cities.

Disrupt-X's CEO, Asim Sajwani, expressed, "Our partnership with Rqem is a milestone in our mission to advance industrial digitization. We're eager to enhance the technological landscape of Saudi Arabia's industrial cities through this strategic alliance."

Bandar Al-Anazi, CEO of Rqem for Smart Solutions commented, "The union of Disrupt-X's

diverse application scenarios and Rqem's local expertise aims to set a new benchmark in technological integration for Saudi Arabia. This initiative not only enhances the nation's tech prowess but also positions it as a potential model for industrial progress throughout the Gulf.

Disrupt-X and Rqem's partnership marks a new chapter in the evolution of Saudi Arabia's industrial cities. Combining advanced IoT capabilities with a deep understanding of local needs, they are setting the stage for a vibrant, technologically forward environment that stands to benefit all stakeholders.

More on Disrupt-X

Located in the heart of Dubai, Disrupt-X has established itself as a pioneering force in the realm of Internet of Things (IoT). They specialize in engineering versatile IoT solutions that are adept at catering to a diverse array of industry verticals. At the forefront of their technological innovation is ALEF IoT Platform which include Mobile Applications, designed to revolutionize operations by automating processes and optimizing efficiency. Building on their established portfolio, Disrupt-X has incorporated a LoRaWAN® Network Server to their offerings, further enhancing their commitment to delivering comprehensive IoT solutions.

By providing over 50 ready use-cases, Disrupt-X showcases its versatility in meeting diverse business needs. The company is constantly innovating and expanding, planning to extend its portfolio to up to 80 ready use-cases by the end of 2023. Furthermore, they proudly host the Cracking IoT Conference, a global gathering that brings together industry experts for insightful discussions, fostering a deeper understanding of IoT's transformative potential.
