

Highlights from Construction Links Network - January 4, 2024

The latest news, blogs and videos for the construction and building industry.

SUNDRE, ALBERTA, CANADA, January 4, 2024 /EINPresswire.com/ --

Construction Links Network is a unique news platform where members "Get More Eyes" on their digital content and increasing their SEO.

The network includes thousands of Canadian construction managers, contractors, developers, building managers, property managers, architects, designers, engineers, government officials and more.

Members use this platform to share and onboard their digital content including news releases, company announcements, blogs, podcasts, webinars, case studies, whitepapers, videos and more.

This week's top video discusses the recent completion of tower construction for the Gordie Howe International Bridge project and represents a historic milestone as both the US and Canadian towers have reached their full height of 220 meters or 722 feet. This marks significant progress for this project aiming for full completion in 2024.

Content this week includes:
