

Prairie Farms Introduces New Single-Serve Iced Coffees

Barista style iced coffee drinks promise smooth and creamy delight in every sip

EDWARDSVILLE, IL, UNITED STATES, February 1, 2024 /EINPresswire.com/ --

With the rise in popularity of ready-to-drink coffee, Prairie Farms is expanding its presence in the category with two new single-serve options in Mocha and Caramel flavors. The single-serve introduction was inspired by the success of the company's iced coffee, which has been sold in half-gallon cartons since 2013.

During the ten days leading up to Game Day, fans can score big by entering to win \$100 dairy prize packages and iced coffee.

"Our award-winning single-serve milk lineup has consistently positioned Prairie Farms as the market leader for many years. Now, our half-gallon iced coffee has paved a successful path for new single-serve iced coffee options, allowing us to serve more coffee lovers than ever before. It delights with every sip, and we're proud to say it's made with 100% real milk," said Matt McClelland, CEO/EVP of Prairie Farms Dairy. "Our farm families work hard to produce high quality milk, and we're always looking to support their efforts with new value-added products. Iced coffee is our first new product launch in 2024, with many more to come throughout the year."
