Mesothelioma Options Help Center of Maryland - The Steinberg Law Group – Mesothelioma & Asbestos Lung Cancer Lawyers - Call Toll Free at (888) 891-2200

BALTIMORE, MARYLAND, USA, March 7, 2024 /EINPresswire.com/ -- Our [Mesothelioma](#) Options Help Center of Maryland is dedicated to providing top quality legal and medical assistance to those stricken with mesothelioma or [asbestos-related lung cancer](#). Anyone wishing to discuss their legal and/or medical options should call (888) 891-2200 to speak directly with an attorney from the Steinberg Law Group. www.mesotheliomaoptions.com

The Steinberg Law Group has decades of experience in handling mesothelioma and other asbestos-related cases. With offices in New York, California and Texas, the Steinberg Law Group has a national footprint that helps win the best possible financial compensation for clients. www.mesotheliomaoptions.com

Typically, asbestos exposure will have occurred sometime between the 1950s and the 1980s. Some of the most prevalent professions that encountered large quantities of asbestos include power plant workers, maritime workers, industrial workers, plumbers, pipefitters, electricians, mechanics, machinists, miners, railroad workers and construction workers, to name a few. Since the latency period for mesothelioma patients is approximately 40 years, most people diagnosed with mesothelioma or asbestos-related lung cancer in 2024 were exposed decades ago. www.mesotheliomaoptions.com

Unfortunately, Maryland is home to 22 natural asbestos deposits in addition to a few asbestos mines. Residents of Maryland who worked in construction, shipyards, power plants, steel mills and the military are at an elevated risk of developing an asbestos-related disease. In 1983,

THE STEINBERG LAW GROUP

The Steinberg Law Group has decades of proven experience and the resources to help victims of asbestos exposure and their families obtain the financial compensation they deserve.

Maryland became the first state in the country to codify asbestos abatement laws, reflecting the high quantity of asbestos used in general construction during a majority of the twentieth century. www.mesotheliomaoptions.com
