“We are thrilled to welcome Brian Edelman to our Advisory Board,” said Tolerisk Founder & CEO Mark Friedenthal. “His deep understanding of cybersecurity and the financial services industry will be invaluable as we continue to provide our users with the most advanced and secure risk tolerance assessment solutions.”

Edelman brings over 35 years of financial services experience, including 27 dedicated to cybersecurity. This expertise will help Tolerisk ensure the highest level of security and data protection for its clients.

Tolerisk has repeatedly been proven a standout risk tolerance provider as recognized in the [2024 T3 Advisor Survey](#). With a user satisfaction rating surpassing industry leaders, soaring to an impressive 8.87 — a significant increase from 8.17 in 2023 — this marks three consecutive years where Tolerisk has been significantly above the category average.

“I’m excited to join Tolerisk and contribute to their mission of providing advisors with the tools and insights they need to make informed risk management decisions in an increasingly complex and ever-evolving environment,” said Edelman.

One of Edelman’s areas of expertise is Cybersecurity regulations and compliance at both the Federal and State levels. This includes the 23 NYCRR 500 regulations from the NY Department of Financial Services, which impact every major financial services organization.

He’s frequently sought after by media outlets and industry organizations, an active member of the Open VRM Advisory Board, and a Forbes New York Business Council Cybersecurity Expert. He has a B.S. in Marketing from Upsala College and a Certificate in Cybersecurity Risk Management from Harvard University.

About Tolerisk

Tolerisk® is an analytical, multidimensional risk-tolerance assessment tool designed to improve and enhance advisor-client relationships through in-depth risk evaluations. In contrast with traditional risk tolerance assessment tools, Tolerisk measures a host of factors, including a client’s willingness and ability to take investment risk, client and advisor risk assumptions and the evolution of risk factors over time.
