*Pacesetting Smart Car Check introduces the "UK VIN Check" tool to better drive accurate and detailed used car report generation in the UK.*

7 BELL YARD, LONDON WC2A 2JR,  
UNITED KINGDOM, April 1, 2024  
/EINPresswire.com/ -- Smart Car Check, a leading provider of accurate and detailed used car history check in the UK, announces the launch of the "Check by VIN" feature, an addition to its car reg check tool.

**VIN Check UK:  
A Car Reg Check  
Alternative for Car  
History Report**

A Car Reg Check Alternative for Car History Report

This latest support offers users a very simple, fast, and efficient way to generate car check reports using the 17-digit VIN number.

This advanced capability, the first of its kind in the UK, stands out for its user-friendliness and easy accessibility, providing a timely alternative to car reg check - users can effortlessly run a [DVLA MOT check](#) to generate detailed report revealing critical records including Insurance written off and condition, DVLA registration details, [MOT history](#), MOT & Tax check, stolen check, outstanding finances and more.

By conducting a VIN number check UK, the VIN provides several benefits to:

- >Used car buyers and sellers
- >To obtain the car check report and verify specifications
- >To track, theft, liens, mileage, and more
- >To ensure safety by verifying recalls
- >To ensure a fair and transparent negotiation
- >To easily build trust and confidence in the deal
- >Auto repair shops and part Suppliers
- >To ensure correct parts are utilized during maintenance and repairs.

Insurance companies

to determine a car market value and confidently decide on the car's insurance coverage.

Key Benefits of the Vehicle VIN Check UK include:

**Easy Operation:** Working with the car VIN is super easy and a generally acceptable way of digging up a car history.

**Access Detailed Car Information:** By decoding the VIN and running a UK VIN check, users get access to everything they need to know about the car, including its past records and condition.

**Premium Support, Same Price:** The cost to use the service remains unchanged while users enjoy additional benefits.

**Support for all vehicle brands in the UK:** Users only need to provide the VIN, no need to worry if the tool provides support for their car make or not.

"Finally, the future of UK VIN search is here. We are happy to introduce a groundbreaking alternative to generating a car check report - Car Check by VIN" said Fahad Iqbal, Founder and CEO of Smart Car Check. "With the VIN number check UK support, we have focused on improving the user experience while offering a versatile tool for quick and easy car check report generation in the UK used to market".

We believe that this innovation will continue to shake up the future of UK VIN decoding and VIN lookup UK services, meeting the needs of our esteemed users by offering them an easy alternative to car reg check."

A VIN number is usually a 17-digit number solidly stamped and engraved onto various parts of a car when it's manufactured. VIN stands for Vehicle Identification Number and it is a code containing both letters and digits. This code, just like the human fingerprint, is unique to every car.

What Information is included in the Smart Car Check VIN Check report?

when users run a VIN check UK using Smart Car Check tool, the following records are provided with a full check:

- >Vehicle specifications
- >Vehicle registration details
- >V5c certificate log book
- >Vehicle identification check
- >Vehicle Identity Check (VIC test)
- >Auction records with photos
- >MOT & Tax dues

- >Imported/Imported Non-EU
- >Mileage History and Mileage discrepancy
- >Stolen check
- >Salvage history check
- >Outstanding finance and agreement
- >MOT history with advisory details and notes
- >Running costs
- >Vehicle performance
- >Fuel economy
- >CO2 emissions
- >SafetyEuro NCAP ratings
- >Recalls
- >High-risk status check
- >Insurance written off and condition
- >Number of plate changes
- >Colour changes
- >Plate changes
- >Keeper changes (ownership history)
- >SMMT details
- >If the vehicle was scrapped
- >Certificate of destruction issued
- >Electric vehicle charging data
- >Safety EURO NCAP ratings

Smart Car Check offers two report packages - the basic and the premium report. While the premium report includes all the available records, the basic report does not include the following records:

- >Auction records
- >Vehicle log book details
- >Number of previous keepers
- >Number of plate changes
- >Colour changes
- >SMMT details
- > If the vehicle was scrapped
- >imported/Imported Non-EU
- >Certificate of destruction issued
- >vehicle charging data

Why to Run a VIN Check UK?

With about 159 vehicles stolen every day, and over 52% of vehicles with hidden history in the UK,

It is very important to know the history of a vehicle before making a purchase to guarantee:

- >Secured investment
- >Safety down the road
- >Car reliability and durability
- >Fair negotiation
- >And also avoid any auto-related legal matters

Beyond that, used car buyers can easily make the right and smart purchase decision if they're aware of the full vehicle history. Some second-hand vehicles aren't just worth the money and car shoppers need to protect themselves from the following red flags:

- >Discrepancies in the seller's description
- >Outstanding debt on the car
- >Theft record on the vehicle
- >Odometer rollback on the car
- >Vehicle reported as a write-off and many more

Usually if one needs to find the VIN number from the vehicle's registration (reg), one can typically do so by checking the vehicle's registration documents or contacting your vehicle manufacturer. However the best option is to search online using services that offer VIN lookup based on registration information. [UK VIN numbers](#) are crucial for identifying vehicles and accessing detailed vehicle history and specifications. Using the VIN number, one can gather information about a vehicle's past ownership, accident history, and maintenance records, providing valuable insights for buyers and sellers alike.

The UK VIN check tool is now available on the Smart Car Check website at <https://smartcarcheck.uk/>. Additionally, whether it's for personal use or for businesses, Smart Car Check VIN check service can be super seamless with their app (Smart Car Check), available for download on the App Store and Google Play.
