Rankin Blair, Chief Operating Officer, Lima One Capital

leading private lender for real estate investors, has announced significant improvements in borrower experience following the adoption of [Elphi's](#) Loan Origination System (LOS). The collaboration between Lima One Capital and Elphi has resulted in streamlined workflows, enhanced automation, and accelerated loan processing times.

Lima One Capital faced challenges in finding a suitable LOS to support its rapid nationwide growth across various loan programs. After evaluating multiple solutions, Elphi's platform stood out for its configurable architecture, robust

API integration capabilities, and comprehensive task management tools.

The results of this partnership have been remarkable:

1. Improved Processing Cycle Times: Lima One has reduced loan processing cycle times by over 10 days per loan since implementing Elphi's LOS.
2. Time Saved: Using Elphi's platform, Lima One saved over 8,000 annualized hours in loan origination tasks.
3. Enhanced User Experience: Elphi's automation and validation features have empowered Lima One's teams to deliver a superior customer experience.
4. Scalability: Elphi's scalable architecture supports Lima One's growth plans and future innovations.

5. Data Analytics: Leveraging Elphi's API endpoints, Lima One gained robust data analytics capabilities for informed decision-making.

Rankin Blair, COO of Lima One Capital, commented, "Elphi has truly been a transformative technology for Lima One. It will help us scale our business while making it easier for our customers to close their loans."
