

# Troma Presents Poultrygeist now on XBOX and EPIC with an objective of stopping Gas Lawn Equipment with Comedy

*Big Weasel Lil Weasel LLC and Troma have teamed up to make an anti-lawn, pro-environment, comedy video game in hopes of saving the planet with satire.*

CLEVELAND, OHIO, USA, April 11, 2024 /EINPresswire.com/ -- "Troma Presents Poultrygeist" is now out on [Epic](#) Game Store and [Xbox](#). The game is a spiritual sequel to Troma's 2006 fast food takedown "Poultrygeist: Night of The Living Chicken."

“

We need to do something. Anything about gas lawn pollution. I hope to fix that problem by making fun of anyone who mows a lawn or wafts at leaves.”

*Mike Fallek*

The goal of the game is to create the same radical environmentalism and social consciousness wrapped in hilarious stories told using fantastic and totally original visuals that Troma is known for.

Chickens have become a part of the discussion about what to do with our lawns and that is where the game focuses. Lawn care is a shockingly massive source of carbon emissions, air pollution, and noise pollution while on the other side of the argument, it is a bit ridiculous to be so ecofriendly to go as far as to own a suburban chicken.

The game is a Triple A Visual Novel and Detective Game. The player will have the chance to explore a city full of fantasy, comedy, lore, and relation to collect all the information needed to solve rising rage gripping the city.

The two current versions out represent an avante garde new take on the visual novel akin to walking through a comic book (Epic Store) and a more a traditional visual novel with the same amazing audio and animation (XBOX).

The game was animated and created by Mike Fallek and studio Big Weasel Lil Weasel using totally original assets, over 15 up and coming and well known independent actors, asmrists, and comedians from all over the U.S including Troma's Lloyd Kaufman, and an original score from the New Jersey's own Underground Punk Rock scene.

"Troma Presents Poultrygeist" is now available on Xbox and Epic Game Store with Steam version to come soon. The 4k [trailer](#) is available as well.
