Stan and Donna Fitzgerald have been in the retail end of the movie industry since 1999 and are now getting involved with documentary film making. The couple are some of Georgia's most high profile conservative grassroots activists so their first two films are geared for the conservative consumer in line with their personal values.

In October of 2023 the couple produced "The Fall of Deceit" with director Frank X Panico which had a theme of pushing back on Government overreach. The documentary stars General Flynn with Laura Loomer , Roger Stone , Admiral Charles Kubic , Vernon Jones , Congressman Jody Hice , Jeffrey Clark , John Solomon , John Nantz , Robert Jeffress and Mallory Staples. The Fitzgerald's found the subject personal as they state they themselves are victims of political persecution. <https://www.accesswire.com/768181/forthcoming-documentary-film-the-fall-of->

People think DVD's are a dying industry. The industry is not anywhere close to over. Streaming doesn't appeal to collectors who want to shelf a product. "
