CLS supports housing stability and preservation by combating housing discrimination based on federal, state, and local laws related to housing sales, rentals, advertising, lending, construction,

insurance underwriting, and appraisals on the basis of race, color, religion national origin, sex (including sexual orientation and gender identification), familial status, and/or disability. Fair Housing advocates at CLS provide education and outreach designed to inform the community of the protections afforded under the Fair Housing Act. We support this priority by engaging in exposing discriminatory practices by conducting testing and systemic investigations proven to expose under or unreported discrimination. Fair Housing Attorneys and Advocates prioritize cases that enforce fair housing laws by acting as private attorneys general, investigating violations through allegations from prospective clients, testing, and community outreach.
