

# Charlotte Sign Company Introduces Fast Manufacturing of Corrugated Plastic Yard Signs

*Charlotte Yard Signs Made from Cost-Effective Corrugated Plastic Material for Indoor and Outdoor Use*

CHARLOTTE, NC, UNITED STATES, May 1, 2024 /EINPresswire.com/ -- Charlotte Sign Company is proud to announce the introduction of their new and improved manufacturing process for corrugated plastic yard signs. This innovative process allows for fast production of yard signs, providing customers with high-quality signs in record time. These signs are made from extruded twin-wall polypropylene sheet, also known as corrugated plastic, and are a lightweight and cost-effective option for a wide range of indoor and short-term outdoor uses.

Corrugated plastic, also known by brand names such as Coroplast®, Corex, Corflute, and Plasticor, is an extremely versatile material that is ideal for creating temporary signs. It is durable, weather-resistant, and can withstand exposure to the elements for short periods of time. This makes it perfect for use as yard signs, event signage, real estate signs, and more.

"We are thrilled to offer our customers the fastest manufacturing of corrugated plastic yard signs in the industry," said Clifford Smith,
